

# African Safari Animals

## Ideas Sheet

Golden grasslands, dense jungles, and dry deserts are all habitats of African animals. Most visitors to Africa go on a safari to see these animals in their natural habitat. Many of the species a person will see on a safari are unique to Africa.

### Additional Topics for Discussion

- What clothing would your participants need to take on a safari? Walking shoes? Hat? Jungle vest? Rain coat? Something else?
- Would your participants enjoy traveling to Africa?
- Would your participants be scared to see safari animals up close in person? Why or why not?
- What would your participants want to see the animals doing while on a safari? Sleeping? Eating? Playing? Something else?
- Do your participants think we need to do more to protect safari animals? Why or why not?

### Possible Props (or Photos) to Bring

- Safari animal figurines or stuffed animals
- Safari hats, vests, and/or binoculars
- Pictures of safari animals

### Music to Play

- "[Africa](#)" (Toto)
- "[The Circle of Life](#)" (The Lion King)
- "[The Lion Sleeps Tonight](#)" (The Tokens)
- "[I Just Can't Wait to Be King](#)" (Elton John)

### Experiences Later in the Day

- Visit the zoo with your participants
- Make safari animal face masks with your participants
- Throw a safari or jungle themed party with your participants (you can even have your participants wear their face masks!)
- Make your own African drums with animal print patterns
- Paint or color your own safari animals (and put together a safari travel guide book with your animal creations!)
- Make your own safari vests, hats, and binoculars
